CONFERENCES AND SEMINARS

[5 Jul 2025 – 7 Jul 2025] Bucharest

Agriculture for Life, Life for Agriculture

Agriculture for Life, Life for Agriculture is an international scientific conference organized annually by the University of Agronomic Sciences and Veterinary Medicine of Bucharest (USAMV). The event brings together researchers, academics, professionals, and students from agriculture, life sciences, environmental studies, and related fields to exchange knowledge, present research, and discuss innovative solutions for sustainable development.

The conference aims to:

- Promote scientific research and innovation in agriculture, food sciences, environmental protection, and life sciences.
- Provide a platform for international collaboration and networking between universities, research institutes, and industry stakeholders.
- Address global challenges related to climate change, food security, biodiversity, and sustainable resource management.

- Acquiring the knowledge and skills necessary to recognize and manage medical emergency situations.
- Practicing cardiopulmonary resuscitation (CPR) techniques for adults, children, and infants.
- Using an automated external defibrillator (AED) in cases of cardiac arrest.
- Correctly applying the Heimlich maneuver for choking victims.
- Essential techniques for managing bleeding, fractures, burns, and other medical emergencies.
- Teamwork and quick decision-making in critical situations.

HOBBIES AND INTERESTS

Areas of interest

- Exploring blockchain applications in improving food security and traceability.
- Research and innovation in the food industry, with a focus on sustainability and efficiency.
- Developing knowledge about the sheep milk industry, including optimizing production processes and promoting derivative products.
- Participating in conferences and scientific events to deepen understanding of new trends in the field.

ORGANISATIONAL SKILLS

Organizational and managerial skills

- **Planning and organization:** Excellent ability to plan activities and resources, demonstrated by managing complex freelancing projects while meeting deadlines and client requirements.
- **Coordination:** Experience in coordinating practical activities for students and guiding them through the learning process.
- **Project management:** Successfully developing and implementing strategies for creating online stores and marketing campaigns, managing all stages from concept to delivery.
- **Teamwork:** Ability to mobilize and coordinate diverse teams, both in volunteer projects and interdisciplinary collaborations.
- **Prioritization and multitasking:** Managing multiple projects and responsibilities simultaneously, both in freelancing and academic activities.

COMMUNICATION AND INTERPERSONAL SKILLS

Communication skills

- **Excellent writing and presentation skills**, developed through preparing teaching materials and reports.
- **Ability to adapt communication** depending on the audience, whether it is students, clients, or team members.
- **Experience in delivering presentations and leading meetings**, both in professional and academic settings.
- **Developing effective collaborative relationships**, both in individual projects and within multidisciplinary teams.
- **Effective conflict management** and maintaining a constructive work environment.
- **Mentoring and guiding skills**, demonstrated through interactions with students and less experienced colleagues.
- **Active listening and receptiveness to feedback**, with a focus on continuous improvement.
